HOW WE WORK

After an extensive consultation with each client, we design your look based on your individual hair texture, styling habits, and your obsession with the latest colour trends.

These looks are achieved by Todd's own invention of an organic approach to "dry cutting", also known as "naked cutting". Paying special attention to skin tone, eye colour, and natural tones in the hair; Gray uses the latest and most modern colouring techniques including hombra, boliage, foiling and glazing to rock your world!

WE WILL CHANGE YOUR LIFE! GUARANTEED!

MEET THE HAIR GOD

Todd Jameson Depauw
(Head Honcho)

Todd Jameson is not your everyday hairdresser. By being a DJ, Editorial Stylist, Runway Director, Artist, Photographer, Perfumer, HairStylist, Fashion Boutique and Tattoo Studio Owner, and father of 3.5 children; Jameson's passion for life and his career are truly palpable. Jameson has not only left his mark, but rather a dent in the industry from NYC to MIAMI, and now LA. Jameson is the inventor of the "Naked Cutting" technique, which is cutting the hair completely dry, designed specifically for each client's hair texture and styling capabilities. With each haircut, clients receive a complementary styling lesson on how to actually recreate the look with minimal product and styling. Jameson's inventive cutting and styling expertise has helped shape the looks of such artists as Courtney Love, the B52s, Green Day, Janes Addiction and more. For over a decade, designers such as G STAR RAW, Tommy Hilfiger, Prada, Gucci and Versace have looked to Jameson for Runway styling, from Bryant Park to Monaco. Jameson's phenomenal work has also been featured on the covers and pages of VOGUE, PLAYBOY, ELLE, COSMO, and VANITADES, just to name a few.

Spending an hour with Todd Jameson is more than just a haircut, it's an experience that can last a life time.
